Single API or Swift

Automatically checks agreed parameters of routes efficiently to one of 1000+ partners.

We are here to help you grow.
Get in touch today.

Transform your cross-border payments.

- Connect the way that suits your business
- Scale fast with no need to build and manage own network
- Add new markets and features as quickly as next day – with no additional APIs
- Single connection and intelligent routing across all endpoints
- Complete network contingency with average of 5+ partners per market
- Competitive FX rates with access to exotic locally sourced currencies

Scale.

Move money from anyone to anywhere with direct reach to 200+ countries and 124 currencies, reaching accounts, wallets, cash locations and card; adding new routes or solutions as quickly as same working day.

Trust.

Protect your business with Bank-grade compliance standards, licenses and tools perfected over 35 years in the cross-border payments business.

Efficient infrastructure.

Create operational efficiency with a hyper-responsive team from on-boarding, optionality and payment management, alongside innovative technology to remove inefficiencies and payment failures.

Speed.

Plug into our network of over 1000+ banking partners to ensure your money gets to where it needs to go in real time with contingency – even in markets where real time is not available.
